

Tips for Card Security

1. Never share your entire card number, PIN, or social security number with anyone by phone or online if you did not initiate the contact. CBC and other financial institution employees will not ask for this information at any time.
2. Regularly review your transaction history and report any unauthorized transactions immediately to CBC by calling **(800) 477-2890**.
3. It is recommended that you change your PIN numbers regularly. You can change your Debit Card PIN number at any CBC branch or ATM.
4. When selecting a PIN number do not use birthdays or addresses of you or your loved ones. Do not write the PIN number on your card or carry it in your wallet.
